

English for Academic Purposes

Spring, 2026

Course No.	HA2397	Course Title	English for Academic Purposes (EAP)	Hours Classroom	3 Credits Seminar Rm. Darwin
Instructor	Young Mee Kim (kimyoungmee@ksa.ha.kr) Office: 3301			Office Hours	Wed 1, Thu 2-3

I. Course Description

The *English for Academic Purposes* (EAP) course prepares students for success in English-speaking academic settings. Focusing on advanced language skills, it hones reading, writing, listening, and speaking abilities through diverse topics and disciplines. The curriculum emphasizes critical thinking and effective communication, enabling students to tackle a wide range of academic tasks independently. Participants will gain familiarity with academic culture, integrity, and expectations, facilitating a seamless transition to university-level studies. By the end of the course, students will be well-equipped with the linguistic and academic tools necessary to excel in their future educational pursuits.

II. Course Objectives

The objectives encompass essential skills for success in English-medium academic settings, focusing on reading comprehension, listening and note-taking, academic writing, oral presentation, and ethical academic conduct.

- Apply advanced reading strategies to comprehend complex texts, including technical papers and scholarly articles.
- Demonstrate the ability to understand academic lectures across disciplines and employ effective note-taking techniques.
- Produce well-structured academic written texts, incorporating advanced vocabulary and grammatical structures appropriate for university-level work.
- Deliver coherent and well-organized oral presentations in a college setting, utilizing appropriate rhetorical strategies and subject-specific terminology.
- Cultivate and uphold academic honesty while independently pursuing scholarly endeavors and intellectual growth.

III. Class Materials

- **Textbook:** Laurie Blass & Mari Vargo (2017). Pathways 4: Reading, Writing, and Critical Thinking. (2nd ed.) NGL/ Cengage Learning. ISBN: 978-1-337-62513-5
- **Supplementary Materials:** Selected journal articles, online lectures, sample academic essays, news media reports, research abstracts, and citation/reference guides. Additional materials will be provided to support specific writing and presentation tasks.
- **Tools:** Students are required to bring a laptop or tablet for writing, research and in-class activities. All written assignments will be submitted via Google Docs.

IV. Evaluation Criteria

- **Midterm Exam (30%)**

The midterm exam is designed to evaluate students' understanding of key course materials and their ability to apply personal insight and critical thinking through academic writing and vocabulary development.
- **Final Paper (20%)**

The Conference Paper, centered on a chapter of the student's choice, will be developed from the initial research proposal or abstract. It should demonstrate a clear research focus, supported by critical analysis and relevant sources, and reflect both academic rigor and original insight. This paper will serve as the foundation for the final oral presentation. Detailed formatting and assessment criteria will be provided in class.
- **Final Presentation (20%)**

The final presentation, grounded in the Conference Paper, should expand on the chosen theme through the integration of creative exploration, academic research, and personal perspective. Students are expected to deliver a 15-minute presentation, followed by a 15-minute class discussion and Q&A. Further instructions will be given in class.
- **Class Participation (20%)**

Active participation is essential in this course, which emphasizes a competency-based approach to promote learner autonomy. Students are expected to contribute meaningfully to class discussions, come prepared with assigned materials, and complete all workshop-related tasks in a timely and thoughtful manner.
- **Attendance (10%)**

Attendance is assessed based on students' consistent presence and punctuality in each class session. Unexcused absences and repeated tardiness will result in significant grade deductions.
- ◆ **Attendance and Evaluation Guidelines:**
 - Criterion-referenced grading will be prioritized over norm-referenced grading to ensure that student performance is evaluated according to clearly defined learning outcomes.
 - In the case of absence from the midterm exam, the average score of the semester's performance assessments will be converted proportionally
 - For details regarding the percentage of credit points applied, please refer to the Academic Performance Management Regulations.
 - If the course instructor deems it necessary, a separate written examination for absent students may be administered following consultation with the Humanity Committee.

- Students must attend at least three-quarters ($\frac{3}{4}$) of the total class hours to be eligible for credit.
- Attendance Deductions:
Unexcused absence (without prior notice or permission): -0.5 points
(includes absence due to sickness without notice)
- Tardiness exceeding 10 minutes or negatively affecting participation: -0.2 points

V. Class Policies

Academic integrity is essential to this course. Plagiarism, cheating, and any form of academic dishonesty are strictly prohibited. Students are fully responsible for the quality and integrity of their own work. Any violation will result in an automatic zero for the assignment, referral to school authorities, and notification of the student's academic advisor. Upholding academic honesty is vital to maintaining a community of trust in the classroom.

VI. Tentative Course Schedule

VI. Tentative Course Schedule				
Week	Content		Skill Focus	Competency Focus
1	Course Introduction & Learning Design			
2	Formality	Chapter Review	Academic reading & interpretation Academic vocabulary & language development Academic writing foundation Listening & academic note-taking Discussion/Debate	Intrinsic motivation Self-directed & independent learning Extensive ideas Open mindedness Elaborated communication Critical & analytical thinking Academic rigor Cooperation
3	Paraphrasing	Chapter Review		
4	Academic note-taking	Chapter Review		
5	Abstract/ Proposal	Chapter Review		
6	Citation	Chapter Review		
7	Essay Prompt Writing			
8	Midterm Exams			
Project 1: Research Paper				
9	Literature Review		Independent Learning Research & information literacy Critical review Editing & peer review Scientific writing Revision Peer editing	Proactive exploration Intensive intelligence Critical thinking Academic perseverance Academic culture & integrity Collaboration & Interpersonal Communication
10	Abstract/Proposal Writing & Discussion			
11~12	Paper Drafting & Peer Editing			
13	Paper Revision & Submission			
Project 2: Final Presentation				
14	Presentation OT		Presentation & oral communication Public speaking Critique	Leadership & Initiative Convergence reasoning Confidence & motivation Resilience & Adaptability Creative-productive thinking
15~16	Conference Presentation/ Discussion/ Q&A			
17	Final Exams			

- The instructor may adjust the schedule as deemed appropriate.
- The class can go online in the case of the inevitable state of affairs.

➤ **Skill Focus - Expanded**

1. Academic Reading & Interpretation

- Skimming, scanning, and deep reading of scholarly texts
- Identifying main arguments, supporting evidence, and underlying assumptions
- Evaluating credibility and relevance of sources
- Annotating and summarizing for synthesis

2. Academic Vocabulary & Language Development

- Discipline-specific terminology and collocations
- Debate and discussion phrases
- Paraphrasing and rephrasing strategies
- Accurate use of hedging and modality in academic writing

3. Academic Writing & Composition

- Structuring essays, proposals, and research papers logically
- Crafting strong thesis statements
- Integrating quotations and paraphrased material ethically
- Editing for clarity, conciseness, and cohesion

4. Research & Information Literacy

- Designing research questions
- Using digital libraries, databases, and AI-assisted tools
- Evaluating and synthesizing sources
- Mastering citation and reference styles (APA/IEEE)

5. Listening & Academic Note-Taking

- Extracting key ideas from lectures and discussions
- Organizing notes for future use
- Distinguishing between essential and supplementary details
- Using abbreviations and symbols for efficiency

6. Presentation & Oral Communication

- Organizing content for audience engagement
- Using visuals effectively
- Handling Q&A sessions with clarity and confidence
- Applying persuasive speaking techniques

7. Editing & Peer Review

- Providing constructive, evidence-based feedback
- Revising drafts based on self and peer evaluation
- Using rubrics to guide improvement
- Incorporating feedback while maintaining authorial voice

8. Digital & Academic Technology Skills

- Utilizing AI responsibly in research and writing
- Creating multimedia academic presentations
- Managing collaborative writing in online platforms
- Maintaining digital research portfolios

➤ **Competency Focus - Expanded**

1. **Self-Directed & Independent Learning**
 - Setting learning goals and monitoring progress
 - Taking initiative in topic selection and research design
 - Reflecting on learning processes and adapting strategies
 - Balancing autonomy with collaboration
2. **Critical & Analytical Thinking**
 - Identifying logical fallacies
 - Evaluating and comparing competing arguments
 - Synthesizing diverse perspectives into coherent insights
 - Making evidence-based decisions
3. **Academic Integrity & Ethical Scholarship**
 - Applying ethical standards in research and writing
 - Avoiding plagiarism through proper citation
 - Respecting intellectual property rights
 - Modeling responsible use of AI tools
4. **Collaboration & Interpersonal Communication**
 - Building consensus within diverse teams
 - Engaging in respectful academic discourse
 - Managing group tasks effectively
 - Offering and accepting constructive criticism
5. **Global & Intercultural Competence**
 - Recognizing cultural influences in academic discourse
 - Adjusting communication styles for multicultural audiences
 - Building inclusive dialogue spaces
 - Demonstrating empathy in cross-cultural exchanges
6. **Leadership & Initiative**
 - Leading academic discussions and debates
 - Organizing collaborative research efforts
 - Motivating peers toward common goals
 - Representing ideas persuasively in formal settings
7. **Resilience & Adaptability**
 - Persisting through academic challenges
 - Adjusting strategies in response to feedback
 - Managing workload under deadlines
 - Viewing failure as a learning opportunity
8. **Creative & Productive Thinking**
 - Developing innovative approaches to academic tasks
 - Connecting ideas across disciplines
 - Presenting research in novel formats
 - Combining analytical depth with creative presentation
