

English II Syllabus

Fall 2025

Course No.	HA1301	Course Title	English II	Hours	3 Credits 3 hrs /16 wks
Instructor	Casey Stojak (casey@ksa.hs.kr) Youngmin Park (techwhiz@ksa.hs.kr)			Office Hour	

1. Course Description

English II is designed to extend and deepen the foundational competencies developed in English I. The course emphasizes the continued advancement of the four core language skills through the study of more complex texts and tasks. Students will enhance their academic writing proficiency, particularly in structured essay composition, and will engage in close reading and critical analysis of an extended work of fiction. Individual presentations will incorporate a more rigorous component of academic research, while a collaborative group project will facilitate the integration of creative writing, performance-based communication, and team-based learning. The course also incorporates diverse media sources to support the examination of contemporary global issues, activate prior knowledge, stimulate collaborative dialogue, and foster the development of critical and creative thinking skills.

2. Objectives

Throughout the course, students will be equipped to:

- Comprehend both practical and academic texts with an awareness of genre-specific conventions and language features.
- Produce spoken and written discourse that is contextually appropriate and effectively tailored to communicative intent.
- Achieve an intermediate to upper-intermediate level of English proficiency suited to academic and real-world applications.
- Foster creative and critical thinking skills through the use of diverse pedagogical strategies, activities, and multimodal resources.

3. Text book and Reference

- Text book: Mari Vargo (2018), *Pathways: Reading, Writing, and Critical Thinking 3: Student Book*, 2nd Edition. Heinle ELT
- Novel: Golding, William. *Lord of the Flies*. Faber and Faber, 1954.

4. Class Activities

- **Lecture:** The teacher will explain key concepts, models, and background information related to the course topics. Students are expected to listen actively and take notes.
- **Discussion:** Students will engage in guided group or class discussions to share ideas, opinions, and interpretations on specific questions or texts.
- **Quizzes:** Short assessments to review vocabulary, assigned readings, and key concepts. These may be written or oral and are usually done at the beginning of class.
- **Writing:** Students will complete individual writing tasks such as summaries, reflections, opinion paragraphs, or creative responses based on readings and discussions.
- **Speaking:** Activities to practice spoken English in both structured and spontaneous formats, including interviews, role-plays, or short monologues.
- **Presentation:** Students will prepare and deliver individual or group presentations on assigned topics. Emphasis will be on organization, clarity, and effective delivery.

5. Assessment Plan: Pass / Fail Rubric

- In order to PASS English II, students are required to complete all of the following tasks—with a **MINIMUM** of 50% completion for each task.
- A **TOTAL SCORE** for the class must be at least 75%.
- In the event of an absence, students will be given either an alternative assignment (for missed Group Projects), or their assignment will be rescheduled (Presentation, Essays, Quizzes).
- Should any task be incomplete, it will result in failure of the course.

Task	Description	% of Final Score
Group Project: Problem-Based Learning	Students will apply scientific concepts from biology, chemistry, and physics to imagine genetically mutated versions of characters from <i>Lord of the Flies</i> . Each group will present their survival strategies and mutations, grounded in real science, and engage in peer-to-peer scientific debates. 8-minute group presentation + 7-minute Q&A and scientific discussion	15%
In class Writing Assignments:	Students will be required to write a three-paragraph essay over the course of the semester. Each section of the essay, including the introduction, body, and conclusion, will be written during separate classes, allowing students to focus on and develop each part individually while incorporating feedback from the teacher for each new section.	15%
Individual Presentation	Students will be required to research and deliver a 7-minute presentation on a given topic. Further guidelines and criteria will be given prior to the project.	20%
Book Quiz	Students will be required to read the <i>Lord of the Flies</i> in their own time and take a quiz on it during the mid-term exam period. Questions will include multiple choice type questions and short answer written questions.	15%
Vocabulary Quizzes	FOUR vocab quizzes worth 15pts each—40/60 required. Makeup quizzes will be available for students who don't pass the threshold.	15%
Final Exam	The exam will be a series of writing prompts & multiple-choice questions based on the unit readings, assignments and vocab list from the textbook and handouts from each unit.	20%

[Note] In addition to completing the course work students should meet certain standards of behavior.

Attendance	In order to pass the course a student is allowed no more than three unexcused absences. Three tardy marks will count as one unexcused absence.
Participation	Students are expected to be engaged, to participate, and to come to class prepared. If a student accumulates 3 transgressions—failing to bring class materials, falling asleep in class, not participating in an activity—the student will be required to complete a supplemental assignment. Completing the assignment will be required to pass the course.

- In most cases, determining whether or not a student meets the minimum 50% completion threshold will be based on a rubric designed specifically for that task.
- In special circumstances, students will be allowed to do additional work to overcome failing to meet the standards of the course. There could be a need for students to do additional work the week after the final exam. In most cases, missed work will be made up during the semester.
- Students who excel in the course will receive the comment “passed with distinction” on their semester end comments. They will also be eligible for one of the 10 Excellence in English Awards.
- Attendance for at least 3/4 of the total class time is required to receive credit.
- In the case of P/F courses, a separate evaluation may be conducted if the teacher in charge determines that the

results of some of the evaluation elements are insufficient and a separate evaluation of the elements is necessary.

- In the event that a base score cannot be calculated, the grade will be handled as follows: the average score of the performance evaluation will be utilized as the base score for the credit points (* Refer to the Academic Performance Management Regulations for the percentage of credit points).
- However, in accordance with Article 10, paragraph 3 of the Regulations for Academic Performance Management, "Despite the calculation of the grounding score, if the person in charge of the course deems it necessary, a separate written evaluation may be conducted for the final examination after consultation with the Faculty Council." (<Revised 2025. 3. 11.>).

6. Weekly Plan

Week	Dates	Pathways	Vocab Quiz (Mon)	Book Quiz (Fri)	Assignments	Holidays
1	8/18 - 8/22	Unit 6: Information Design				
2	8/25 - 8/29	Unit 6: Information Design	Unit 6	CH 1-4		
3	9/01 - 9/05	Unit 6: Information Design		CH 5-8	Essay writing 1	
4	9/08 - 9/12	Unit 8: Medical Innovations	Unit 8	CH9-12	Project draft	
5	9/15 - 9/19	Unit 8: Medical Innovations			Essay writing 2	
6	9/22 - 9/26	Unit 8: Medical Innovations			Project presentation	
7-8	9/29 - 10/10				Project presentation	<i>no class on 10/3(Fri)-10/12</i> <i>*Chuseok Holiday</i>
9	10/13 - 10/17	[Mid-term Exams]		Book Quiz (Essay)		
10	10/18 - 10/24	Unit 9: World Languages	Unit 9		Essay writing 3	
11	10/27 - 10/31	Unit 9: World Languages			Individual Presentation draft	<i>no class on 10/31(Fri)</i> <i>*SAC (10/31 - 11/2)</i>
12	11/03 - 11/07	Unit 9: World Languages				
13	11/10 - 11/14	Unit 10: Survival Instinct	Unit 10			
14	11/17 - 11/21	Unit 10: Survival Instinct			Individual Presentation	
15	11/24 - 11/28	Unit 10: Survival Instinct Review			Individual Presentation	
16	12/01 - 12/05	Review				
17	12/08 - 12/12	[Final Exams]				

(This schedule may be subject to change.)

Guideline 1: Group Project

Title: Lord of the Flies: Survival of the Mutated

Purpose: This project challenges students to creatively re-engineer four characters from *Lord of the Flies* as mutated human survivors on a deserted island. Students will apply advanced concepts from biology, chemistry, and physics to imagine how each character's mutation helps them adapt to extreme conditions, secure resources, and outcompete other groups. It is **not just a creative project**, but a **competitive scientific showdown**. Students must justify their adaptations with real-world science and **engage in structured peer-to-peer scientific debate**.

Your Mission

1. Choose 4 characters from the novel.
2. Design **scientifically plausible mutations** (from biology, chemistry, or physics).
3. Build a survival plan—how do your powers help you adapt, defend, and dominate?
4. Present your ideas. Then, **defend them in a scientific debate**.

Scientific Themes You Can Use:

- Evolution, mutation, natural selection
- Human physiology and metabolism
- Toxicity and biochemical survival
- Energy generation & thermoregulation
- Physics of extreme environments

Presentation Format

- **8 minutes** to explain your team name, characters, mutations, and strategy
- **7 minutes** to answer challenges from other teams—and launch your own attacks! *Remember: it's not just about surviving—it's about proving others can't.*

What You'll Be Graded On:

- Scientific accuracy & integration
- Creativity of mutation design
- Survival plan and logical cohesion
- Debate defense and scientific counterarguments
- Clarity, structure, and teamwork in presentation

GRADING RUBRIC

GRADES: The group will pass or fail as a team. This means that ALL members must take on equal portions of all parts of the project in terms of planning, writing, and performing.

Competency	Excellent (5)	Proficient (4)	Basic (3)	Developing (2)
Problem-Solving: Scientific design and survival strategy	All mutations are well-justified with clear scientific logic and creative survival integration	Mostly sound scientific reasoning and coherent survival plan	Some scientific explanation is present but lacks depth or precision	Weak strategy or limited use of scientific concepts
Complex Communication: Clarity and impact of presentation	Scientific terms used fluently; delivery is clear, persuasive, and structured	Clear and understandable with mostly effective delivery	Generally understandable, with minor issues in clarity or organization	Unclear delivery or disorganized content
Self-Directed Growth: Preparation and team participation	Clear role division, strong initiative, and use of feedback for improvement	Responsible role performance and active cooperation	Roles are somewhat clear; collaboration varies	Weak preparation or limited collaboration
Critical Thinking: Debate and Q&A performance	Insightful questions, strong rebuttals, and evidence-based defense	Logical and relevant questions; responds thoughtfully	Some effort in questioning and defending, but lacks depth	Superficial or weak participation in discussion

***If you do not complete this project or are unable to present during your assigned class, your group will automatically fail.**

Guideline 2: Individual Presentation

Each student must:

1. Complete and submit a project outline

Submit your presentation outline with a given topic in the class by week TWELVE.
Reference should be included if used.

2. Make a ppt file

Create a ppt file that will be of an aid to your presentation. Time your speech when you simulate it with your file. Don't assign too much time to side materials. You may have about 10~15 slides.

3. Deliver an oral presentation

Formal speech goes on at a normal rate, with a precise choice of vocabulary, and rhetoric that grabs the attention of the audience. Check your pronunciation, speed of delivery, magnitude of voice, etc. Refer to grading criteria for this.

4. Prepare to receive any questions from the audience

Audience might want to ask direct questions on any part of your presentation. You are responsible for clarifying the points raised with sufficient explanation.

5. Submit the printed presentation file with correction after your presentation

Print out your presentation file in a handout format and correct English errors, if any.
(Six slides in one page)

GRADING RUBRIC

GRADES: Students will pass if they achieve a score of 50% or higher, as determined by the following criteria, but they are encouraged to aim for scores exceeding 75%.

Competency	Excellent (5)	Proficient (4)	Basic (3)	Developing (2)
Self-Directed Growth: Project preparation and revision	Clear planning, timely submission, and thoroughly revised materials	Well-organized preparation with timely submission	Adequate planning with minor issues	Lacks planning or delayed submission
Critical Thinking: Content structure and logical development	Content is well-organized, insightful, and logically coherent	Mostly structured and accurate with some depth	Understandable, but with some unclear or weak parts	Unfocused or shallow content
Complex Communication: Language use and Q&A response	Rich and precise vocabulary; clear, confident answers	Mostly appropriate language; responsive to questions	Understandable language with limited range	Unclear language or weak Q&A handling
Creative Thinking: Visual design and effectiveness	Slides are visually effective, creative, and reinforce key ideas	Clear and well-structured slides supporting the message	Adequate visuals with some clutter or inconsistencies	Distracting or poorly organized visuals

***If you miss this presentation or are unable to present during your assigned class, you will automatically fail.**

[참고] 한글 역량 루브릭

그룹 프로젝트

역량 영역/핵심역량 (평가기준)	Excellent (5)	Proficient (4)	Basic (3)	Developing (2)
Study Nature/문제 해결 역량 (과학적 설계 및 생존 전략)	돌연변이의 과학적 근거가 명확하고 창의적인 생존 전략과 긴밀히 연결됨	대부분 타당하고 과학적인 설명이 구조적으로 제시됨	설명은 있으나 일부 논리성이나 과학적 정확성이 부족함	전략이 약하거나 과학 개념의 적용이 미흡함
Answer the Future/복합적인 의사소통 역량 (발표 내용 전달력)	과학 용어 사용이 정확하며, 명확하고 설득력 있는 발표 수행	전체적으로 이해하기 쉽고 구조적인 발표 구성	전달 가능하나 일부 표현이나 구조에서 아쉬움	발표가 산만하거나 전달력이 부족함
Know Yourself/자기 주도 성장 역량 (준비와 역할 수행)	팀 내 역할이 명확하며 자발적으로 협력하고 피드백을 반영함	책임감 있는 역할 수행과 협업 태도 확인됨	기본적인 역할 수행은 하나 협력에 편차 있음	팀워크가 약하고 준비가 부족함
Study Nature/비판적 사고 역량 (토론 및 질의응답)	날카로운 질문과 명확한 근거로 타당한 반박과 방어 수행	논리적 질문과 응답을 통해 주제를 깊이 있게 다룸	일부 논리적이거나 응답이나 질문이 다소 피상적임	질문과 응답이 표면적이거나 부족함

개인 발표

역량 영역/핵심역량 (평가기준)	Excellent (5)	Proficient (4)	Basic (3)	Developing (2)
Know yourself/자기 주도 성장 역량 (준비과정—계획, 제출, 수정)	철저한 계획과 자기주도적 준비 및 사후 수정까지 완벽하게 수행함	전반적으로 체계적이며 자기 주도성이 뚜렷함	계획과 제출은 되었으나 일부 미흡함	지시 위주로 준비하며 자기 계획이 부족함
Study nature/비판적 사고 역량 (발표 내용—논리성, 근거, 구조)	근거가 명확하고 논리적이며 통찰력 있는 내용을 제시함	대부분 논리적이며 주제에 충실함	이해는 가능하나 구조나 논리에 약간의 혼란 있음	내용의 깊이나 분석이 부족함
Answer the future/복합적인 의사소통 역량 (언어사용 및 질의응답)	어휘가 풍부하고 표현이 정확하며, 질문에 논리적으로 응답함	대부분 적절한 표현을 사용하고 질문도 잘 대응함	전달은 가능하나 표현이 제한적이고 응답이 부족함	언어 사용에 오류가 많고 질문 대응이 미흡함
Answer the future/창의적 사고 역량 (슬라이드 구성, 시각자료 등)	시각자료가 창의적이고 발표를 효과적으로 지원함	명확하고 깔끔하게 정리되어 발표를 잘 보조함	전달은 되지만 시각적 완성도나 구성력에서 아쉬움	자료가 산만하거나 발표 흐름을 방해함
