1. Course overview

(1) Floorball is a fast-paced indoor team sport that promotes cooperation and accountability within each position. As a safer and more accessible alternative to field hockey, it allows students to learn passing, shooting, and defensive basics while practicing teamwork in a dynamic environment. (2) Flag football is a safe, non-contact version of American football that replaces tackling with flag pulling. It emphasizes strategy, teamwork, and responsibility for assigned roles, offering students an engaging way to develop throwing, catching, and running skills. Through these two sports, students will cultivate commitment to their team, recognize the value of their contributions, and develop self-management and personal growth skills essential for both sports and daily life.

2. Key competency objectives

Core curriculum competencies
Class contribution: Leadership, Role performance, Collaborative attitude, Class management support

3. Textbooks (n/a)

4. Teaching methods

- Direct instruction – Teacher-centered approach
- Cooperative learning – develops social skills, teamwork, and communication
- Responsibility model – empowers students to take control of their behavior

5. Assessment criteria and methods

A. Assessment criteria

Sport skill assessment(1)	Sport skill assessment(2)	Class contribution	Class attitude	Attendance	Total
25%	25%	20%	20%	10%	100%

B. Assessment methods

Part 1. Competency assessment: Physical Education Class Contribution Rubric

Evaluation Criteria	5. Outstanding	4. Excellent	3. Satisfactory	2. Needs Improvement	1. Unsatisfactory
1. Leadership	Actively leads the class, mediates conflicts, and sets an exemplary standard, encouraging participation from peers.	Willing to help lead and resolve conflicts. Positively influences others through exemplary behavior and demonstrations.	Occasionally helps lead or assist. Shows good behavior when prompted but is not proactive.	Does not demonstrate leadership and is passive in mediating conflicts. Lacks effort in setting an example.	Shows no leadership and may even disrupt the class atmosphere or cause conflict.
2. Role Performance	Eagerly and responsibly takes on various roles such as referee, timekeeper, or coach, significantly contributing to the class.	Performs assigned roles well and is helpful in keeping the class running smoothly.	Not proactive in taking on roles, but performs them responsibly when instructed.	Reluctant to take on roles and fails to properly perform assigned duties.	Refuses roles or abandons assigned duties, hindering the class's progress.
3. Collaborative Attitude	Actively accepts and works with teammates' suggestions, maturely accepts decisions/results, and significantly improves team morale and collaboration.	Readily accepts teammates' suggestions and maturely accepts decisions/results. Works well with the team.	Follows teammates' suggestions and accepts decisions/results, but doesn't actively work to improve the collaborative atmosphere.	Opposes teammates' suggestions or complains about decisions/results, harming the team atmosphere.	Unwilling to collaborate with peers and causes friction due to frequent complaints, leading to team breakdown.
4. Class Operations Contribution	Independently helps with class logistics such as organizing equipment, setting up nets, and cleaning up, contributing significantly to the class's success.	Helps with organizing equipment or setting up facilities as instructed by the teacher.	Occasionally helps with equipment cleanup but only when prompted, not voluntarily.	Contributes little to class operations and is indifferent to tidying up.	Is irresponsible with class equipment and facilities, and may even disrupt setup or cleanup.

Part 2. Sport skills assessment

A. Floor ball

5 points (Outstanding)	3 points (Satisfactory)	1 point (Needs improvement)
Spatial Awareness: location, position, space		
Based on a wide field of vision, the student identifies currently open spaces and makes accurate passes to teammates in a static position. On defense, the student reads the opponent's current position and formation to take up an effective defensive spot.	The student has a general awareness of teammates' and the ball's location. They occasionally move into or pass to an open spot. On defense, they maintain a basic position.	The student only follows the ball and fails to grasp the overall court situation, often overlapping fixed positions with teammates

Spatiotemporal Integration: Timing, prediction, sequential actions, moving trajectories		
Consistently performs actions at the precise moment required, calculates the ball's trajectory and destination with uncanny accuracy, and seamlessly executes multiple movements in sync. Fluidly connects a series of actions (e.g., receiving a pass, controlling, and immediately passing again).	Often initiates actions at the right time. Can generally predict the ball's path and coordinate basic simultaneous movements. Links a series of actions with some pauses between them.	Frequently acts too early or too late. Has difficulty predicting the ball's trajectory, leading to missed receptions or passes. Struggles to coordinate multiple movements and performs actions in a disconnected sequence.
Situational awareness: Strategic Acumen, Adaptability		
Quick Judgment: Immediately assesses the game situation and chooses the optimal pass or path before the opponent's movement stops Multi-Option Processing: Quickly identifies the best play from multiple options (pass, dribble, shot) by pinpointing the opponent's defensive weakness. Risk-Reward Calculation: Instantly calculates the benefits of a high-risk, high-reward play versus a safe, low-reward play and makes a strategic choice. Adaptive Thinking: Does not panic in unexpected situations (e.g., a deflected pass or a sudden defensive player) and responds instantly with new actions tailored to the situation (e.g., a change of direction, a rebound catch).	Quick Judgment: Makes reasonably quick decisions, but occasionally hesitates or delays. Multi-Option Processing: Considers two or three options but tends to stick to a safer, rather than optimal, choice. Risk-Reward Calculation: Mostly chooses safe plays and rarely attempts more challenging, high-risk options. Adaptive Thinking: Pauses or becomes flustered when faced with an unexpected situation, resulting in a delayed response.	Quick Judgment: Takes too long to make a decision, acting only after the opportunity has passed. Multi-Option Processing: Sticks to a single option or moves aimlessly, unable to find an available choice. Risk-Reward Calculation: Either attempts reckless, high-risk plays or is overly cautious, missing opportunities. Adaptive Thinking: Freezes completely when an unexpected situation arises and fails to act.
Coordination		
Perfectly integrates eye-hand and eye-foot coordination to perform any movement with fluidity and precision. They skillfully execute complex techniques using both sides of their body in a balanced way, and they freely control the rhythm and tempo of their movements to dictate the flow of the game. All their actions appear natural and highly efficient.	Possesses a foundational level of eye-hand and eye-foot coordination, successfully performing basic required movements. While they use both hands and feet, they may occasionally lose balance or break the flow of movement. Their sense of rhythm is inconsistent, which can slightly reduce the efficiency of their actions.	Struggles with eye-hand or eye-foot coordination, resulting in clumsy and awkward movements. They have difficulty using both sides of their body and tend to rely heavily on one side. Their movements lack a sense of rhythm, making their connected actions feel unnatural and inefficient.
Fair Play & Sportsmanship		
Respects opponents and teammates, always competing	Complies with the rules and participates in the game with	Frequently commits fouls or complains about rulings,

with integrity and fairness. Humbly accepts all game decisions and encourages teammates after a mistake, positively influencing the team atmosphere.	minimal conflict with opponents.	disrupting the flow of the game.
▷ The maximum possible score is 25 points ▷ Assessment will be conducted by the teacher ▷ Practice opportunities will be provided before the assessment ▷ The methods and criteria for sport skill assessments may be modified based on students' skill levels		

B. Flag football

5 points (Outstanding)	3 points (Satisfactory)	1 point (Needs improvement)
Aerial awareness: location, position, space		
Predicts the trajectory and speed of a ball in the air, catching or passing it with perfect timing. They throw the ball to the most efficient spot for a running teammate, making it easy to receive.	Predict the ball's trajectory to some extent when catching or passing, but their timing is occasionally off.	Fails to properly predict the ball's trajectory, leading to dropped catches or inaccurate throws.
Flag–Pulling Technique		
Anticipates the opponent's movements and speed to pull the flag at the most effective moment. They remove the flag with a single, precise motion, avoiding unnecessary physical contact.	Pull an opponent's flag, but it often requires multiple attempts or is done with a clumsy technique. They may occasionally cause a foul.	Pull the flag and resorts to making useless physical contact with opponents or committing fouls in an attempt to stop them.
Dynamic Space Utilization		
Perfectly executes all basic routes and analyzes the defender's movements in real-time to creatively adjust their route. They use complex and effective fakes to completely outmaneuver defenders and instantly create open space, demonstrating perfect synergy with the quarterback.	Accurately understands and executes basic route patterns. They can perform simple fake movements and find appropriate open space within a pre-determined route. However, their ability to make spontaneous route adjustments is limited.	Lacks any understanding of route concepts and runs aimlessly. They show predictable, uniform movements regardless of the defender's position, and their fakes are nonexistent. They have no awareness of creating or finding open space.
Accuracy & Leading Pass		
Accurately calculates the receiver's speed at all	Understands and executes the basic concept of a	Has no concept of a leading pass, often throwing behind

distances to deliver a lead pass with perfect timing and distance. Their accuracy does not drop under pressure, and they can utilize various pass trajectories and styles, allowing the receiver to make a natural catch without slowing down.	leading pass. They maintain a decent level of accuracy under light pressure, and their passes require only minor adjustments for the receiver to catch. They tend to rely on one or two pass styles.	the receiver or with the same force regardless of distance. Their accuracy is significantly poor, forcing the receiver to stop or turn back to catch the ball.
Fair Play & Sportsmanship		
Respects opponents and teammates, always competing with integrity and fairness. Humbly accepts all game decisions and encourages teammates after a mistake, positively influencing the team atmosphere.	Complies with the rules and participates in the game with minimal conflict with opponents.	Frequently commits fouls or complains about rulings, disrupting the flow of the game.
▷ The maximum possible score is 25 points ▷ Assessment will be conducted by the teacher ▷ Practice opportunities will be provided before the assessment ▷ The methods and criteria for sport skill assessments may be modified based on students' skill levels		

Part 3. Class attitude and attendance

A. Attendance (10 points)

- Class absence: -2 points, late arrival: -1 point
- 3 or more absences: fail
- 2 late arrivals = 1 absence

B. Class attitude (20 points)

- Passive participation or refusal to follow teacher instructions without reason: -1 point
- Bringing food into class: -1 point (gum, snacks, beverages, etc.)
- Inappropriate clothing and footwear for physical activity: Cannot participate in class, -2 points
- Three warnings from the teacher for valid reasons will result in a Fail grade
- Warning: Using profanity or insulting behavior that causes discomfort to others
- Warning: Excessive physical confrontation to show strength or intimidate others
- Warning: Creating any situation that could threaten student safety

6. Criteria for Awarding Credits

- Pass: In the case of receiving a score of 80 or more out of 100 according to the criteria of the evaluation method.
- Students with excellent academic achievement are recommended for the Academic Excellence Award and the Principal's Award, and are recorded according to core competencies in the Subject Details. However, students with poor academic attitude or poor attendance are excluded.

- Attendance for at least three—quarters of the total class hours is required to earn credit.
- For Pass/Fail courses, if the instructor determines that a specific evaluation element is insufficient and requires a separate evaluation, a separate evaluation may be conducted.
- In Pass/Fail (P/F) courses, if the subject teacher deems that additional evaluation and assignments are necessary due to insufficient performance in any of the assessment components, separate evaluations and assignments may be given.
- Refer to the "Academic Performance Management Regulations" for the percentage of credit points applied.

7. Weekly Lesson Plan

Week	Themes and contents	Notes
Week 1 8/18 - 8/23	Syllabus review	
핵심역량	N/A	
Week 2 8/25 - 8/29	• Floorball introduction • Learn basic rules, safety, and equipment / Practice dribbling and passing	
Competencies	Class contribution	
Week 3 9/1 - 9/5	• Basic Skills: Shooting technique, 1-on-1 skills	
Competencies	Class contribution	
Week 4 9/8 - 9/12	• Small-Sided Games: 3v3 mini games → understanding space & teamwork	
Competencies	Class contribution	
Week 5 9/15 - 9/19	• Basic Tactics: Position roles, passing buildup practice	
Competencies	Class contribution	
Week 6 9/22 - 9/26	• Game Application: Team matches with strategy and cooperation	
Competencies	Class contribution	
Week 7 9/29 - 10/3	Midterm Performance Assessment	
Competencies	Class contribution	
Week 8 10/6 - 10/10	Korean Thanksgiving day	
Week 9 10/13 - 10/17	Midterm exam	
Week 10 10/20 - 10/24	• Flag football Introduction: Learn basic rules, safety, and equipment / Practice dribbling and passing	
Competencies	Class contribution	
Week 11 10/27 - 10/31	• Basic Skills: Shooting technique, 1-on-1 skills	※ 한마당체육대회
Competencies	Class contribution	
Week 12 11/3 - 11/7	• Small-Sided Games: 3v3 mini games → understanding space & teamwork	
Competencies	Class contribution	
Week 13 11/10 - 11/14	• Basic Tactics: Position roles, passing buildup practice	
Competencies	Class contribution	
Week 14 11/17 - 11/21	• Game Application: Team matches with strategy and cooperation	
Competencies	Class contribution	
Week 15 11/24 - 11/28	Final Performance Assessment	
Competencies	Class contribution	
Week 16 12/1 - 12/5	수업 보강 주간	
제17주	기말고사	

12/8 - 12/12		
--------------	--	--

※ The lesson plan is subject to change depending on the academic schedule

8. Examples of floorball and flag football fundamental skills

1) Floorball	2) Flag football
1. Grip & Stick Handling- Correct way to hold the stick and control movements 2. Ball Control (Dribbling)- Moving the ball while maintaining close control 3. Passing • Push pass (short, accurate) • Sweep pass (longer, with more power) 4. Receiving (Trapping)- Stopping and controlling the ball from a pass 5. Shooting • Wrist shot (quick release, accuracy) • Slap shot (power, longer distance) 6. Basic Defense Skills- Stick checking, body positioning without contact 7. Goal Scoring Awareness- Choosing when and where to shoot 8. Movement Without the Ball- Spacing, creating passing options	1. Basic Stance & Starting Position- Offensive and defensive ready positions 2. Ball Handling- Holding the football securely (running grip) 3. Throwing • Short pass (chest level) • Overhead pass (longer distance) 4. Catching • Two-hand chest catch • Overhead catch • Over-the-shoulder catch 5. Running with the Ball- Speed, agility, and directional changes while protecting the flag 6. Flag Pulling- Quick and safe removal of the opponent's flag belt 7. Basic Offensive Patterns- Slant route, hook, and go patterns 8. Basic Defensive Positioning- Man-to-man coverage, staying balanced 9. Team Communication- Calling plays, signaling, basic strategy sharing

※ The teaching and scheduling of floorball and flag football may vary depending on students' skill levels, learning atmosphere, achievement, and class environment.

1. Analytical and Creative Thinking	2. Complex Communication	3. Leadership and Teamwork	4. Digital/Quantitative Literacy	5. Global Perspective	6. Adaptability/Progression/Spirit of Adventure	7. Integrity and Ethical Decision Making	8. Habits/Mindset
Ability to identify, manage and deal with complex problems	Ability to understand and express themselves in two or more languages	Ability to be the first to come up with and present new ideas	Ability to understand, use and apply digital technology	Ability to develop an open mind about the traditions or values of others	Ability to develop flexibility, agility and adaptability	Ability to sustain an empathetic and understanding perspective	Sincerity
Ability to see through prejudice and identify reliable information and uncertain information	Ability to communicate clearly with diverse audiences or readers	Ability to influence people to follow themselves, rather than lead them through directives, orders, or authority	Ability to create digital contents and media	Ability to understand the history, politics, religion, and culture of another region	Ability to challenge unfamiliar situations	Ability to cultivate sincerity, honesty, fairness, and respect creativity	Creativity
Ability to find quality information in the flood of information	Ability to listen attentively	Ability to build trust, resolve conflicts, and support others	Ability to utilize multimedia resources to effectively communicate one's ideas in a variety of	Ability to use one or more of the international languages used worldwide	Ability to explore and experiment	Ability to display moral courage in the face of injustice	A love of learning and curiosity

			formats				
Ability to articulate meaningful questions	Ability to speak effectively and coherently	Ability to facilitate group discussions or discussions, build consensus, and negotiate outcomes	Ability to master and use higher mathematics	Ability to use technology to connect people and things around the world	Ability to word effectively in situations of ambiguous or changing priorities	Ability to act responsibly for the benefit and happiness of the greater community	Resilience/elasticity
Ability to analyze and create ideas or knowledge	Ability to write concisely and clearly, considering the diversity of readers	Ability to teach, guide, and counsel Ability to seek help from others	Ability to understand traditional or recently emerging fields such as mathematics, science, technology, environmental science, robotics, geometry, cellular automata, nanotechnology, and biotechnology	Social and intellectual skills to effectively navigate information across multiple cultures	Ability to see failure as a lesson and to accept that innovation is made up of frequent failures and small successes	Ability to have an intrinsic understanding of ethical issues or dilemmas about new media or new technologies	Perseverance /patience
Ability to devise and test solutions to problems by trial and error	Ability to explain information and persuasively engage others in an engaging way	Ability to collaborate on tasks, manage groups, and delegate responsibilities		Ability to use 21 st century core competencies such as communication skills, collaboration skills, critical thinking skills, creativity to properly understand and deal with global issues	Ability to develop a sense of independence to seek new roles, ideas, or strategies	Ability to make rational and ethical decisions on complex issues	Self-efficacy
Ability to think of different ways to cope		Ability to listen and practice goals		Ability to learn from and collaborate with people from different cultures, religions and lifestyle through mutual respect and open dialogue	Ability to develop the knowledge and competencies necessary to start a business and run a business		Stress management skills
Ability to develop knowledge and perspectives that are not limited to one field but span multiple fields		Ability to share credit for success		Ability to generate diverse ideas and exploit social and cultural differences to get things done			Time management skills
Ability to make sustained inferences							
Ability to put things together or adapt them to new uses and situations							
Ability to							

solve new problems that cannot be solved through established rules							
Ability to use knowledge or creativity to solve complex real-world problems							

1. Complex Problem-Solving Skills	Ability to solve new and unclear problems that may arise in complex real-world situations
2. Critical Thinking Skills	Ability to compare and analyze the strengths and weaknesses of various solutions or approaches to a given problem using logic and reasoning
3. Creativity	Ability to come up with novel ideas when given a certain topic or situation or to suggest a creative method in the process of solving a problem
4. Human Resource Management Skills	Ability to select the most suitable person for a specific task and manage them to achieve maximum work performance through motivation, and systematic efficient management
5. Ability to Collaborate	Ability to adjust one's own behavior in response to the behavior of others
6. Emotional Ability	Ability to perceive other people's reactions and understand why they react the way they do
7. Judgement and Decision-making Skills	Ability to make the most rational judgement and decision by analyzing the costs and benefits of a specific situation or problem
8. Orientated Towards Service	Ability to actively seek ways to help others
9. Negotiation Skills	Ability to bring together parties who differ in ideas or interests and try to reduce those differences
10. Cognitive Flexibility	Ability to apply different kinds of rules or principles to rearrange and reorganize things in different ways
