1. Course Overview

This course explores the intersection of art and design while promoting a growth mindset, emphasizing the belief that abilities can be developed through dedication and hard work. New for this semester: Every class will begin with a 10-minute mindfulness session to center our focus, relieve stress, and boost creative energy before diving into artistic endeavors. Through hands-on projects, discussions, and reflective exercises, students will delve into various artistic techniques, design principles, and strategies for overcoming creative challenges. Evaluation is based on the creative process throughout the year (30%) and creative outcomes that culminate in a year-end exhibition (70%). The broad areas of study include painting and related medias, graphic communication, three-dimensional design, and textiles and fashion.

2. Course Objectives

- Foster interdisciplinary thinking: Encourage science gifted learners to explore connections between art and science, recognizing the symbiotic relationship between creativity and analytical thinking.
- Develop visual literacy: Equip learners with the skills to effectively communicate complex scientific concepts through visual mediums such as drawing, painting, sculpture, and digital design.
- Cultivate problem-solving skills: Provide opportunities for learners to apply scientific principles to design challenges, fostering critical thinking and innovative problem-solving abilities.
- Encourage experimentation and risk-taking: Create a supportive environment where learners feel empowered to take creative risks and explore new ideas, recognizing that failure is an integral part of the learning process.

3. Core Competencies

KSA ART Core Competencies				
Creativity	Critical Thinking	Communication	Empathy	Team Leadership
-Creativity in art and design is the ability to generate original ideas, concepts, and solutions that are both innovative and meaningful. It involves thinking outside the box, exploring unconventional approaches, and pushing the boundaries of traditional norms and conventions. Creativity in art and design encompasses a wide range of activities, including brainstorming, experimentation, problem-solving, and envisioning possibilities. - Communication skills in art and design involve the ability to effectively convey ideas, concepts, and messages through visual means, verbal explanation, or written documentation. It is about being able to articulate the inspiration, intention, and process behind your creative work to others, whether they are colleagues, clients, or the general audience. - Empathy is crucial in art and design because it allows artists and designers to connect with their audience on a deeper level by understanding their perspectives, emotions, and needs. By putting themselves in the shoes of others, artists and designers can create works that resonate with people on a personal or emotional level, eliciting empathy and fostering a sense of understanding and connection. - Team leadership in art and design, effective team leadership plays a crucial role in bringing together diverse talents and perspectives to achieve outstanding results. As a leader, it's essential to foster an environment of collaboration and creativity while also providing clear direction and guidance. One key aspect is understanding each team member's strengths and weaknesses, and delegating tasks accordingly to optimize productivity and motivation.				

4. Textbooks and references

Basic Design, Jooyoung Park, Keimyung University Press, 2013

Field Notes on Science & Nature, Michael R. Canfield, Harvard University Press, 2011

Google Art and Culture, <https://artsandculture.google.com/>

5. Evaluation

Creative Process	Creative Outcome
10%(Attendance) 20%(Participation)	70%

* Final grades will be determined by the total points in the following scale

✓ Evaluation will be made using the pass/fail scale.

✓ Only those earning higher scores than what is equivalent to 70% on evaluation criterion table will pass, on the condition that they meet attendance requirements and fulfill criteria in the evaluation criterion table.

3. Evaluation & Grading Evaluation will be made using the pass/fail scale. Only those earning higher scores than what is equivalent to 70% on the evaluation criterion table will pass, on the condition that they meet attendance requirements and fulfill criteria in

the evaluation criterion table.

Attendance (10%). Attendance should be regular and faithful. Being late more than 10 minutes will be considered as an absence.

Participation (20%). Art & Design works must be submitted by the deadline, or there will be a penalty on the scores.

Creative Outcomes (70%):

Project 1: "Human-in-the-Loop" AI Design Project (25 marks): (Modified from Graphic & Illustration) Students will develop ideas through investigation, demonstrating critical understanding. By acting as creative directors, learners will explore and select appropriate AI resources, media, and techniques to visualize a conceptual future.

Project 2: Practical Entrepreneurship & Merchandise Design (25 marks): (Modified from Entrepreneurship) Students will develop ideas through investigation. They will present a personal and coherent response that realizes intentions and demonstrates an understanding of visual language by creating physical printmaking merchandise.

Recording of marks for all KSA Art & Design work				
Component	Art Journal	Graphic & Illustration Project	Entrepreneurship Project	Total Component
Creative Outcomes(70)	20	30	30	70
Creative Process(30)	Attendance 10		Participation 20	30

* Attendance

Attendance should be regular and faithful. Any absence without prior permission based on proper documentation will hurt your grade substantially. Being late more than 10 minutes will be considered as an absence.

* Participation

– Art & Design works must be submitted by the deadline, or there will be a penalty on the scores.

* Creative Project 70 marks

1. Art Journal: Record ideas, observations and insights relevant to intentions as work progresses 20 marks

2. Graphic & Illustration Project: 30 marks

–Explore and select appropriate resources, media, materials, techniques and processes

–Develop ideas through investigation, demonstrating critical understanding

3. Entrepreneurship Project: 30 marks

–Develop ideas through investigation, demonstrating critical understanding

–Present a personal and coherent response that realises intentions and demonstrates an understanding of visual language

★ Important Notice

- ✓ Arrive to your lesson on time, enter the room in an orderly manner
- ✓ Be learning ready TO ADD BASED ON NEW EXPECTATIONS
- ✓ Complete homework on time and to the best of your ability
- ✓ One person speaking only, listen respectfully to your teacher and peers
- ✓ Tutorials center on general skill building and students are encouraged to customize the results to suit their needs. Tutorials are intended to be applied toward completion of your final product
- ✓ Using what you've learned, make it suit your needs
- ✓ The rest of the time is devoted to customizing your own work
- ✓ Following these rules will make lessons positive and exciting, allowing you to complete complex and creative practical work safely

6. Weekly Lecture contents

Note: Every class includes a 10-minute mindfulness warm-up. The schedule is subject to change depending on the school's arrangements.

Week	Lectures and activities	Tasks and other notes
1	Course Overview Spring Begins! Introduction to Design Class	*Assignment: What is Good Design?
Core competencies	communication	
2	Presenation/ Exploring BAUHOUSE Studio Topic: Analyzing the Use of Metaphors in Visual Art	R e s e a r c h Presentation
Core competencies	communication, critical thinking	
3	Art and Design Essay Studio Topic: Artificial Intelligence in the World of Art Creation	Art & Design Writing
Core competencies	creativity, communication, critical thinking	
4	"Human-in-the-Loop" AI Project 1: Concept Generation & Prompt Engineering. (Replaces Art and Design Essay)	Vedio Clip: Helvetica
Core competencies	communication skill, critical thinking, creativity	
5	"Human-in-the-Loop" AI Project 2: Refining, Critical Curation, and Concept Development. (Replaces Digital Drawing 1)	studio practice
Core competencies	communication, critical thinking, creativity	
6	"Human-in-the-Loop" AI Project 3: Final Digital Rendering & Online Exhibition Prep. (Replaces Digital Drawing 2)	studio practice
Core competencies	communication skill, critical thinking, creativity	
7	Learning-at-museum includes youths program, cultural access, and artwork appreciation program.	National Museum of Modern and Contemporary Art, *Korea MMA Learning Program
Core competencies	communication skill, critical thinking, creativity	
8	Mid-term Exam Week	
9	Craft Design 1 Silk Screen and Print making/ Basic theory	studio practice
Core competencies	communication skill, creativity	
10	Craft Design 2 Idea generation, Sketch/ Tutorial and Feedback	studio practice
Core competencies	communication skill, critical thinking, creativity	

Week	Lectures and activities	Tasks and other notes
11	Print making3 Development1 / Tutorial and Feedback	studio practice
Core competencies	communication skill, critical thinking, creativity	
12	Print making4 Development2 / Tutorial and Feedback	studio practice
Core competencies	communication skill, critical thinking, creativity	
13	Digital Drawing1 -Concept and Idea generation	studio practice
Core competencies	communication skill, critical thinking, creativity	
14	Digital Drawing2 -online exhibition	studio practice
Core competencies	communication skill, critical thinking, creativity	
15	Exhibition Week -print and share	
Core competencies	communication skill, critical thinking, creativity	
16	Final Exam Week	Exam.

■ Competency Assessment Table

Elements and CORE Competencies	Limited	Satisfactory	Competent	Confident	Excellent
Identify concepts, ideas, observations and insights relevant to intentions as work progresses - <i>critical Thinking</i> - <i>creativity</i>	-Limited ability to record ideas, observations and insights	-Basic ability to record relevant to intentions	-Competent and consistent ability to record relevant to intentions	-Confident and assured ability to record relevant to intentions	-Exceptional ability to record ideas, observations and insights related to personal work and the work of others through visual and other methods
Explore and select appropriate resources, media, materials, techniques and processes - <i>critical Thinking</i> - <i>creativity</i> - <i>problem solving</i> - <i>communication skills</i>	- Limited ability to refine work, driven by insights gained through exploration of ideas and reflection	-Basic ability to refine work, driven by insights gained through exploration of ideas and reflection	-Competent and consistent ability to refine work, driven by insights gained through exploration of ideas and reflection	- Confident and assured ability to refine work, driven by insights gained through exploration of ideas and reflection	-Exceptional ability to refine work, informed by insights gained through exploring and reflecting on ideas
Develop ideas through investigation, demonstrating critical understanding - <i>critical Thinking</i> - <i>creativity</i> - <i>Empathy</i> - <i>communication skills</i>	-Development of ideas through investigations shows limited ability	-Development of ideas through investigations shows basic ability	-Development of ideas through investigations shows competent and consistent ability	-Development of ideas through investigations shows confident and assured ability	-Development of ideas through investigations shows exceptional ability
Demonstrate a personal and coherent response that realises intentions and demonstrates an understanding of visual language - <i>creativity</i> - <i>team leadership</i> - <i>communication skills</i>	-Realisations demonstrate limited understanding of visual language through application of formal elements	-Realisations demonstrate basic understanding of visual language through application of formal elements	-Realisations demonstrate competent and consistent understanding of visual language through application of formal elements	- Realisations demonstrate confident and assured understanding of visual language through application of formal elements	-Realisations demonstrate exceptional understanding of visual language through application of formal elements
